XCELTHERM® SX500

XCELTHERM® SX500 is a polydimethylsiloxane-based fluid for laboratory/testing bath applications. XCELTHERM® SX500 can be used in open bath operating temperatures from ambient to 170°C (338°F), with outstanding oxidative stability properties. In closed systems, XCELTHERM® SX500 can be operated at temperatures from -40°C to 230°C (-40°F to 446°F), with excellent inherent thermal stability, assuring extended fluid life and optimal heat transfer efficiency.
